Mother Goose on the Loose, Hatchlings: Ready to Hatch

You are being invited to participate in the *Mother Goose on the Loose, Hatchlings: Ready to Hatch* program! The *Hatchlings* program is for expectant families. It is based on the award-winning early literacy *Mother Goose on the Loose*[®] program for children from birth to age 3 with their parents or caregivers.

The purpose of the *Hatchlings* program is to increase awareness of early literacy skills, the importance of reading, and child development milestones. Expectant families who participate will be invited to attend a program prior to the arrival of their child. They will also be invited back to participate in another series of *Hatchlings* programs after their child is born. These programs will be fun and interactive to model bonding around early literacy activities. Families will be given materials, in the form of books and educational toys, to keep and use at home. Parents will be asked to complete a program evaluation survey after each program session they attend and may receive a follow-up phone call.

Privacy and Confidentiality

All survey responses and data collected will be kept confidential. Participants will not be identified by name in any publication or presentation unless they want their name published and grant permission.
